Red Flags

Ask the patient to think about the **last 2 weeks** and respond to the following questions:

- 1) The back pain has spread down your leg(s) at some point in the last 2 weeks
- 2) There has been pain in your shoulder or neck at some time in the last 2 weeks
- 3) You only walked short distances because of your back pain
- 4) In the last 2 weeks, have you dressed more slowly than usual because of your back pain
- 5) Its not really safe for a person with a condition like yours to be physically active
- 6) Worrying thoughts have been going through your mind a lot of the time
- 7) You feel that your back is terrible and its never going to get any better
- 8) In general you have not enjoyed all the things you used to enjoy
- 9) Overall, how bothersome has your back pain been in the last 2 weeks

Please add up the scores from above and enter in the box below
